

ZENEX
DRILLING

Drilling Solutions Realised

25+ years
experience in PNG

Welcome to Zenex Drilling

At Zenex Drilling we are redefining exploration and mine drilling in Papua New Guinea (PNG). With 25+ years experience in exploration and mining in some of PNG's most remote and challenging terrain, our team have continued to deliver results for our clients decade after decade.

Our commitment to working with local communities to realise the benefits of operational activities through economic development, job creation, training and community support is second-to-none.

Zenex Drilling is part-owned by the Lihirian Landowner Group, ensuring the success of the organisation directly delivers prosperity for the community.

I welcome you to partner with Zenex Drilling for any exploration or mining project you are considering in PNG or around the globe.

E. Bonte

Proud History

Owned by experienced drill operators and the Lihirian Landowner Group, Zenex Drilling has conducted exploration and mine drilling in PNG for a range of local and international companies.

From the head-quarters based in PNG, Zenex Drilling is now expanding its offering of high quality exploration and mine drilling services across PNG and globally.

Exploration and Mine Drilling

The Zenex Drilling team are experienced in mobilising and operating equipment in remote locations and challenging terrain with limited access.

Our services include geothermal drilling, well descaling/workover activities, steam relief well drilling, plug and abandons, air drilling: RC/AC/RAB, mud rotary: PCD/tri cone, diamond coring: SQ/PQ/HQ/NQ/BQ, large diameter bore/well drilling, directional drilling, heli-portable drilling operations, blast hole drilling and more.

With equipment and operational solutions for exploration and mine drilling projects, Zenex Drilling are well placed to handle ad-hoc projects and long term contracts.

25+ Years in PNG

Inclusive Workforce

Modern, Reliable Fleet

Our Difference

As an experienced exploration and mine drill operator, Zenex Drilling is proud to be owned and operated by a diverse and multi-skilled group of business leaders.

Zenex Drilling's approach to drilling includes working with experienced drill operators, and building capacity in local communities by employing and up-skilling the local labour force, resulting in an efficient and effective solution for our clients.

Equipment Fleet

Zenex Drilling maintains a comprehensive fleet of equipment to suit exploration and mining drilling projects in remote locations across PNG and globally.

UDR1200HC Sandvik DE880

Zenex Drilling fleet contains 2 rigs of this specification

Geothermal coring

Well descaling/workover activities

Steam relief well drilling

Air drilling RC/AC/RAB

Mud rotary PCD and tricone

Diamond coring: SQ/PQ/HQ/NQ/BQ

Large diameter bore/well drilling

Directional drilling

Mine site production specific drilling

UDR650 Sandvik DE810

Zenex Drilling fleet contains 2 rigs of this specification

Air drilling RC/AC - exploration

Air drilling RC - grade control

Air drilling RAB - rotary air blast

Diamond coring

Remote exploration projects

DML Epiroc

Zenex Drilling fleet contains 4 rigs of this specification

Drill and blast

RC drilling - grade control

T130XD Schramm

Zenex Drilling fleet contains 1 rig of this specification

Mud rotary PCD and tricone

Geothermal coring

Steam relief well drilling

Well descaling workover activities

Mine site production specific drilling

Large diameter bore well drilling

CS 1500 Atlas Copco

Zenex Drilling fleet contains 1 rig of this specification

Diamond coring

Remote exploration projects

Geotechnical drilling, testing and install

CS 1000 Atlas Copco

Zenex Drilling fleet contains 1 rig of this specification

Heli-portable operations

Diamond coring

Remote exploration projects

Geotechnical drilling and testing

HD 250 Zenex Drilling

Zenex Drilling fleet contains 1 rig of this specification

Horizontal / high wall drainage

Air drilling

Mud rotary PCD and tricone

Mine site horizontal specific drilling

Ancillary Equipment

In addition to the fleet of rigs, we maintain a range of ancillary equipment to assist with exploration and mine drilling projects in PNG and around the world. Examples of our growing plant and equipment include:

- Kill pumps OPI (multiple sizes)
- BOP and accumulators (multiple sizes)
- Gensets (multiple sizes)
- Power packs
- Cement tanks
- Cement pumps
- Mud tanks
- Service trucks
- Water trucks
- Backhoes
- Front end loaders
- And more

The Way We Work

Zenex Drilling has embraced the 'Way We Work' program, a safety leadership initiative aimed at empowering local staff within an open coaching environment. This program is specifically designed to address daily cultural variances that may arise.

As a result of this initiative, individuals from the local community have entered Zenex Drilling as labourers and advance to roles as leading hands and senior leaders within the business.

Safety, Health and Environment

Zenex Drilling places the utmost importance on the well-being of its team, the communities it serves, and the environment in which it operates. The commitment to safety, health and environment is ingrained in every facet of the company's operations, underpinning its dedication to responsible drilling practices.

Safety is a priority at Zenex Drilling. The organisation firmly believes that each employee has the right to return home safely at the end of the day. A comprehensive set of safety protocols is meticulously implemented to create a secure working environment, minimising risks and ensuring the welfare of team members. Zenex Drilling invests in cutting-edge safety equipment and continuous training to maintain a culture of safety excellence.

Zenex Drilling's approach goes beyond being a set of policies – it's a commitment to excellence, a promise to prioritise safety, protect the environment, and engage meaningfully with the communities it touches.

Partner with Us

We invite you to partner with the Zenex Drilling team for your next exploration or mine drilling project in PNG or around the globe.
